# SUPERLIFT

## counterweight

When fitted to the base of the 2.3t roadable counterweight, the optional 1.1t superlift counterweight simply and effectively increases the capacity of the crane.

The Superlift counterweight allows you to lift up to 12% heavier loads in both pick & carry and on stationary charts.

- 1.1t allows transport on trucks under 3.5t with car licence
- Fast and easy to set up
- Simple to use
- Proximity sensor auto-sensed for safety
- Operator-friendly loading system
- Up to 12% increased capacity

TIDD PC28 shows counterweight being loading >>

# WORKING RANGE With 2.3t Counterweight and 1.1t Superlift Counterweight on Rear

NOTE: Rated capacity values shown are for the stationary chart on the hook.

## FAST AND EASY SET UP

The fastest Superlift Counterweight setup in its class.

- Using the TIDD PC28, remove the 1.1t Superlift Counterweight from the delivery vehicle and place on level ground.
- Using the TIDD PC28, lift the 2.3t Counterweight from the front of the crane and lower onto the top surface of the Superlift Counterweight and pin into position.
- Turn the TIDD PC28 crane around and reverse up to the coupled Counterweights.
- Connect lifting chains, lift joined counterweights and pin to the back of the TIDD PC28.
