

# TIDD CRANE IIII

# TIDD PC28

**TRT**  
MADE  
POSSIBLE

[www.trtaustralia.com.au](http://www.trtaustralia.com.au)

[www.trt.co.nz](http://www.trt.co.nz)

The TIDD PC28 is the ultimate pick and carry crane for capacity, safety and comfort!

# FEATURES

**The TIDD PC28 is constructed using the highest quality components, and prioritises safety throughout its design.**

**The TIDD PC28 is the right crane for a wide range of operating environments with many class-leading features:**

- **European standard automotive finish**
- **Shortest forward projection in its class**
- **Outstanding turning radius**

## Full Power Boom

With the new 18.65m full power boom, a 75% stationary chart for the heavy lifts and 66% pick and carry chart, the TIDD PC28 packs a massive punch.

Made from high tensile steel, telescope sections 1 and 2 are fully synchronised and provide hook compensation. Telescope section 3 is independently operated with its own hydraulic cylinder.

## Huge Lift Capability

With a 28 tonne maximum lift on the lug and 27.6 on the hook block, The TIDD PC28 delivers outstanding lifting capacities for improved efficiency and greater lift options, setting a new benchmark in the industry.

Moving from the stationary chart to the pick and carry chart is as simple as turning off the hold brake. You can now lift more and move more safely without compromise!

Optional 1.1t Superlift counterweight will increase your lift capacity.

## Focused on Safety

The TIDD PC28 is the only pick and carry crane with this level of safety. Designed to maximise safety, the crane will minimise risk on the work site and on the road. Safety features include Dynamic LMI with a deadlock switch inside the cabin. The LMI bridging switch is outside the cabin. Slew Safe™ is a critical safety component that is included with all TIDD PC28 cranes!

The innovative safety features of the TIDD Crane, including LMI bridging switch as standard, enables the TIDD PC28 to legitimately operate under EN13000 standards. This enables the TIDD PC28 to be the only pick and carry crane in its class with a 75% stationary lift chart.

## Superior Roadability

Get from site to site with ease with a maximum speed of 80km per hour (speed limited). It has full ABS braking for improved safety, whether the crane is operating while stationary or at speed.

It is driven by a Mercedes Benz engine and Allison Transmission. With its superior suspension, the TIDD PC28 is 12 tonne per axle on the road including its 2.3 tonne removable counterweight. No IAP and no permits in NSW.

## The Ultimate in Comfort

From the ergonomically designed forward mounted ROPS cabin (Patent No. 2012203625), with two-door configuration and ducted air conditioning, to the 150kg rated air suspension seats and 3-point safety belts, this crane is designed for comfort over long hours, helping to reduce operator fatigue!

## Manufactured for the Industry

TRT have been designing and manufacturing heavy equipment, cranes and trailers for over 50 years. With real expertise in crane design and manufacture, TRT is the home of the TIDD Crane.

Many of the TIDD PC28 features are designed based on industry feedback, improving safety and focused on capability, by drawing on technology and knowledge from our renowned manufacturing capability and experienced team. TRT's manufacturing operation is ISO9001-2015 accredited.

## OPERATOR FAMILIARISATION TRAINING

**Upgrading your fleet to include a TIDD PC28 is made simple and efficient for all operators.**

TRT has developed an exclusive and comprehensive operator familiarisation programme and delivered by trained experienced operators at your location\*. This is included with your TIDD Crane.

\*Conditions apply.

1

### Counterweight

2.3 tonne roadable counterweight. Optional Superlift counterweight available.

2

### Emergency Stop Buttons

- Inside cabin
- Either side of the crush zone in articulation area.

LMI override key is located outside behind the cabin.

3

### Articulation

Articulating 44° either side of centre for improved maneuverability, the best in its class!

4

### ROPS Cabin

Certified ROPS, 2-person cabin, seats have integrated seatbelts. Double door access. Optional FOPs for optimal protection.

5

### Engine

Mercedes Benz OM906 six-cylinder, diesel engine.

6

### Carry Deck

1 tonne capacity carry deck with restraint points.

7

### Visibility

Mirrors are placed for optimised visibility and additional cameras are available for increased safety.

8

### Dynamic LMI

Automatically reduces the lift chart for side slope.

9

### Boom

6.12-18.65m high tensile full power boom with 4 telescope sections.

9

27.6 tonne capacity on running rope.

25 tonne capacity.

28 tonne capacity on fixed lug (stationary)

# DIMENSIONS

## CAPACITY

28 tonne capacity on fixed lug  
27.6 tonne capacity on running rope

## BOOM

6.12-18.65m high tensile steel  
4 section full power boom

## ARTICULATION

44° either side of the centre

## SPEED

Max 80km/hr

## MASS

Gross vehicle mass 23.9 tonne  
Front axle mass 11.9 tonne  
Rear axle mass 12 tonne

## COUNTERWEIGHT

2.3 tonne roadable, front and rear mount

**TIDD**  
CRANE IIII

# SPECIFICATIONS

The TDD PC28 is built with specialist features for construction and mining. There are a wide range of options available to tailor the crane to your operation. If the options you require are not listed below, please contact one of our experts.

## CRANE

Double acting hydraulic cylinders (-6 to + 65°) with integral holding valve, allowing rigging to drop straight into the front chain box from the hook.	4.6 tonne line pull Braden PD15 2-speed winch with automatic disc brakes and third wrap indicator.
Anti-two block device.	14mm non-rotating wire rope x 6 falls.
Robway RC18510 Dynamic Load Indicator with automatic cutouts and digital display.	15 tonne capacity spreader bar.
A dash mounted deadlock switch allowing a temporary increase to 110% RC only with reduced function speeds.	Large 2-sectioned chain box at the front of the crane and accessed directly from the hook.
A key locked bridging switch is mounted externally on the cab limiting access to authorised persons.	1 tonne capacity carry deck with restraint points.
Joystick control of boom and winch functions with 2-speed winch button, boom-telescoping switch proportionally controlled, and boom luffing with dead man trigger on grip.	Two work lights on the boom and one rotating beacon on the boom and engine cover.
15 tonne capacity Rhino hook.	Three emergencies stop buttons, in cabin and either side of the crush zone in the articulation area.
	Tri light safe load indicator on cabin roof with audible alarm.
	CraneSafe inspection.
	1 year warranty standard.

## DRIVELINE

Mercedes Benz OM906 six-cylinder, 6.4 litre, turbo charged, intercooled 205 kW diesel engine.	Auto Grease system.
Allison 3000 series automatic transmission, 6 speeds forward.	TIDD hydro-pneumatic suspension on the front axle with hydraulic lockout for crane mode and automatic height adjustment for road mode.
Kessler high-speed planetary axles with diff lock on front axle.	Heavy duty parabolic spring suspension on rear.
Meritor transfer case.	High quality load sensing piston pump for hydraulic system, 305 litre hydraulic tank with filtration byway of pressure and return line filtration.
Two stage engine and exhaust brake.	Battery isolator, external jump start terminals and starter isolator as standard.
410 litre fuel tank with locking cap.	LED 24V lighting system
Automatically activated emergency hydraulic steering.	Right side rear handrail for safe servicing of the engine area.
Dual line full air brakes on all wheels with ABS.	
Pneumatically released spring applied emergency / park brake on all wheels.	
Holding brake for front right wheel to allow slewing during stationary lifting.	

## OPERATOR

Forward mounted cabin provides excellent vision.	Hand rails and access steps all have 3 points of contact at all times.
Certified ROPS, 2-person cabin with double door access. (Patent No. 2012203625).	Safety glass throughout.
2 x 150 kg rated air suspension seats with 3-point seat belts.	1.5 kg fire extinguisher.
Large dry storage area via the hinged cabin steps, ideal for storing soft slings.	Mirrors - placement for optimised visibility.
	Reversing camera and alarm.
	Air conditioning.
	Bluetooth, Radio and USB Port.

## OPTIONS

Crane	1.1 tonne Superlift Counterweight
	Traction Air CTI Tyre Pressure Control System. Exclusive to TIDD Crane. Front and rear axles.
	Rear handrail - left hand side
	25° offset attachment for Rhino
	Winch Camera
	1.9m offset Fly Jib 0°, 20° and 40° offsets
	Spare tyre and wheel
	Spare wheel winch assembly for carrying under rear chassis
	Loose wheel nut indicators supplied and installed
	Custom paint to match your fleet (2 solid colours).
Operator	Man Basket - Supply Only
	9.2t capacity single sheave hook block
	30t Hook
	Refrigerated compartment under dogman seat
	Seat covers for operator & dogman
	9 kg fire extinguisher mounted front chassis left side
	FOPS (Certified Cab Fall Protection System)
Driveline	UHF radio supplied and installed
	First aid kit
	Overhead electrical safety warning system
	Fogmaster fire suppression system
	Engine fan belt guard assembly
	Magnetic drain plug for hydraulic oil tank

*This options list is not exhaustive. There are a range of other options available for the TIDD PC28. If you do not see an option specified on the list above, please contact the manufacturer for a full list of options available.*

# **SLEW**

# **SAFE**

## MOVE SAFE

**Slew Safe delivers peace of mind for drivers, dogman, crane owners and site owners, with improved safety, risk management and duty of care.**

Slew Safe simply and effectively allows the TIDD PC28 and PC25 operator to pick and carry a load knowing that they will be warned and restricted. No other pick and carry crane is this safe.

Australian Innovation Patent No. 2019100317

**INCLUDED  
IN YOUR  
TIDD PC28**

## **How Slew Safe Works**

When the crane in operation moves from green and amber to **RED**, this is an overload notification (based on the lifting chart). This will activate the Slew Safe.

When the crane is operated in the **GREEN** and **AMBER** areas of the lifting chart, Slew Safe will remain inactive.

## **Activation of Slew Safe will:**

- Reduce speed of the steering to 15% in the unsafe direction
- Makes steering harder with instant feedback through the steering wheel to operator
- The engine will “load up” making an audible sound change for operator
- Constant audible alarm inside and outside cabin to warn operator and dogman of overload
- Retains ability to move back to the safe direction for normal operation in **GREEN**

**Watch the  
Slew Safe  
demonstration  
video**

# SUPERLIFT COUNTERWEIGHT

**+12% CAPACITY**

The Superlift counterweight allows you to lift up to 12% heavier loads in both pick & carry and on stationary charts.

When fitted to the base of the 2.3t roadable counterweight, the optional 1.1t Superlift Counterweight simply and effectively increases the capacity of the crane.

- 1.1t allows transport to, site under 3.5t with car licence
- Operator-friendly loading system using the crane
- Proximity sensor, auto-sensing for safety
- Fast and easy to set up
- Simple to use

For further information and lift charts please refer to pages 10-11 for both Pick and Carry and Stationary charts. Other lift charts are available on request.

## TRACTIONAIR® TYRE AIR PRESSURE MANAGEMENT

Traction Air manages tyre pressure to the standard 130psi on all 4 front and rear tyres, creating a stable lift platform and improving crane safety.

- Incorrect tyre pressure, over inflation or punctured tyres can put operators at risk.
- **Constant tyre pressure monitoring** with Traction Air allows operators to lift safely, and correctly every time. From a simple to use touch screen in the cab, instant leak and puncture alarms notify the operator of a change, reducing risk of serious incidents.
- **Improve safety and operator confidence.** There is no need for manual tyre pressure checks on start-up, increasing valuable up time. No matter the surface temperature, even on bitumen, tyres on TIDD PC28 will remain at 130psi.
- Based on more than 22 years of product innovation and exclusive to TIDD PC28, Traction Air® has a **3 year /500,000km warranty\***.

With counterweight on rear

**TIDD**  
CRANE IIII

NOTE: Rated capacity values shown are for the stationary chart on the hook.

## After Sales Support

TRT is proud to manufacture the TIDD PC28, and we are committed to supporting our product for its warranty and beyond. The team of highly experienced TIDD service technicians and agents are available to assist operators, fleet owners and workshops with training, advice, documentation and product upgrades.

## Parts

TRT stocks genuine spare parts for the TIDD PC28 in Australia and NZ. We can easily arrange overnight freight for all spares and service items to ensure the Crane is returned to service with minimal downtime.
